## Concept Note

We are constantly battling the divide between the *local* and the *global* in English classrooms. English teachers need to develop expertise to teach English as a *global* language in its diverse forms and functions, keeping in view the *local* necessities. The workshop addresses these emergent issues requiring focused awareness-raising in the areas that go unaddressed in our teacher training courses. Keeping in view the new challenges of present times, the workshop includes the issues of teaching English to students in higher education including professional studies and students at the school level.

The workshop also addresses the larger sociolinguistic issue of *linguicism* in multilingual societies like India.

The National Workshop on English Language Teaching offers professional development opportunities to English language educators at all levels from across India. The EFLU National ELT Workshop is a premier learning platform that equips you with new advances in the fields of Materials Development, Language Evaluation, Spoken English, Phonetics, and Discourse Analysis. The workshop will bring together leading academicians and researchers in the field of English Education.

## Who can enrol for the workshop?

- Teachers of English at all levels
- College and University students

All sessions will be in English.

## Themes

- Teaching pronunciation
